

# Jakub Górník

## Junior Frontend developer

I am a motivated front-end developer who is not afraid of new challenges, with a passion for creating intuitive and practical applications. I specialize in technologies such as React, Typescript and Next.js and have my first commercial experience. I want to use my skills to further develop my professional career and at the same time contribute to the team's success.

### My technical competences

- Javascript, Typescript
- React.js
- Next.js
- Node.js
- Vue.js
- Git
- HTML
- CSS, SASS, TailwindCSS, MaterialUI
- Jest, Vitest, React Testing Library
- Redux-toolkit, Zustand
- CI/CD, REST, GraphQL
- Firebase, MongoDB, PostgreSQL

### Chosen projects

**Portfolio** - personal website showcasing myself and created projects

Typescript React.js Next.js TailwindCSS

**Live version:** [portfolio-jakubgornik.vercel.app](https://portfolio-jakubgornik.vercel.app)

**Github:** [github.com/jakubgornik/portfolio](https://github.com/jakubgornik/portfolio)

**Machines manager** - web application designed to improve processes such as planning and machine management

- User interface implementation based on a design created in Figma
- Providing the possibility of registering and logging in the application user
- Support for all CRUD operations within the application, working with API
- Use of dynamic routing and SSR
- Integration with Firebase services
- Numerous functionalities and data validation
- Optimization and top performance measured in Lighthouse

Typescript React.js Next.js TailwindCSS Auth.js Firebase

**Live version:** [machines-manager.vercel.app](https://machines-manager.vercel.app)

**Github:** [github.com/jakubgornik/machines-manager](https://github.com/jakubgornik/machines-manager)

**Easybank** - modern bank website

- Implementation of responsive design
- Data validation
- Creating attractive animations
- Optimization and top performance measured in Lighthouse
- Integration with external libraries

Typescript React.js Next.js TailwindCSS

**Live version:** [banking-site-jakubgornik.vercel.app](https://banking-site-jakubgornik.vercel.app)

**Github:** [github.com/jakubgornik/BankingSite](https://github.com/jakubgornik/BankingSite)

### Education

#### Silesian University of Technology

Faculty: Automation, Electronics and Computer Science

Major: Automation and Robotics

Full-time first-cycle studies

### Experience

#### Frontend developer apprentice at Euvic

20.05.2024 - 17.06.2024

In my work, I had the opportunity to actively contribute to the development of a dedicated web application integrating information from IoT devices for a client from the logistics industry. I participated in the project refactor, solved bugs and created new functionalities in cooperation with the entire project team.

Typescript Vue.js Nuxt.js SASS GraphQL

#### Frontend developer apprentice at Euvic

01.06.2023 - 05.07.2023

As part of my job I have had the opportunity to develop modern application for client. I was involved in creating a website from scratch, where I took on the responsibility of implementing an eye-catching interface that prioritized user intuitiveness. In addition to the layout, I also delved into the website's logic and successfully integrated various third-party libraries to enhance its functionality.

Typescript React.js Next.js TailwindCSS GraphQL

#### Frontend developer intern at Webio

01.08.2022 - 01.09.2022

At work, I contributed to the development of single page applications based on a ready-made visual design. I used tools such as Jira and the Git version control system. I collaborated with the rest of the team while working.

Typescript Vue.js Nuxt.js TailwindCSS

### My soft skills

- Native proficiency in Polish, English at a C1 level
- Ability to communicate effectively within a team
- Proven ability to create aesthetic designs and projects using Figma tool
- Fluent in management tools such as Git, Jira and Kanban boards, experience in Agile methodology
- Organized and conscientious, I consistently carry out assigned tasks
